M. E. POSTMASTERS WANT
McMILLIN APPOINTED.
As First Assistant Postmaster General.

Boston, March 12.—Postmasters throughout New England are anxious for the appointment of Frank E. McMILLIN, assistant postmaster of Boston, as first assistant postmaster general. This is the office now held by F. H. Hitchcock, who is to go to the treasury department with former Postmaster General Cortelyou, who is now secretary of the treasury.

The reason the postmasters of this part of the country want the appointment of Mr. McMILLIN is that he is a postmaster general in his general fitness for the office. He is not only one of the most popular postal officials in the east, but has had a long career of efficient service in the department. Prior to being appointed assistant postmaster of the Boston office he was an inspector and in that capacity came to be widely known throughout New England.

COACHMAN IS HER HUSBAND

Mrs. Huling, Left Fortune By Aged Spouse, Bride Again.

Bennington, March 12.—News was received here yesterday of the marriage in Manchester, Saturday, of Mrs. Jennie Bissell Huling of North Bennington to Frank Lake of White Creek, who has been cohabitant for Mrs. Huling several months. He was recently granted a bill of separation from his former wife who now resides in White Creek. Jennie Bissell gained much notoriety three years ago by marrying Mr. Huling, who was 84 years of age, while she was only 24. Mr. Huling died last Memorial day, leaving a large fortune. She is Lake's third wife.

\$50,000 FIRE IN HOLD OF LINER DEVONIAN.

Hay, Cotton and Corn Ruined by Flames and Water.

Boston, March 12.—Damage estimated at \$50,000 was caused by a fire that broke out in no. 4 hold of the Leyland line steamship Devonian at the White Star line docks here yesterday. The fire started on the storage deck in a compartment where six carloads of baled hay was stored. The hay was destroyed, together with considerable other freight, consisting principally of cotton. In the hold also 20,000 bushels of corn were ruined.

A bursting hose flooded the deck and caused considerable damage to a quantity of Egyptian cotton and some machinery that was brought over on the steamship when she arrived here from Liverpool last Monday. One fireman, Lieutenant John Cassidy, was overcome by smoke, and Hoseman Patrick Wall was injured by being struck by the nozzle of a bursting hose. It is expected that the Devonian will be able to sail for Liverpool on Thursday, as scheduled.

PRESIDENT TO REOPEN COAL LANDS IN THE WEST.

Finds That Half of 60,000,000 Acres Withdrawn Is Not Needed.

Washington, March 12.—President Roosevelt has come to a compromise in his fight with western senators over the public domain in the west. A new order that will restore to the public domain about half the coal lands withdrawn from entry in the past year will soon be issued. In all, the President has withdrawn 60,000,000 acres of coal lands since last summer, not including many millions acres of other lands for forest reserves. In the withdrawals of coal lands he relied for advice on Gifford Pinchot, chief of the Bureau of Forestry. Now, taking the findings of the experts of the geological survey, the President has discovered that about half the land withdrawn can be restored to entry, and still the best of the coal lands be kept in the government's hands.

Almost a Centenarian.

Underhill Center, March 12.—The funeral of Matthew Casey, aged 98 years, who died Friday at the home of his daughter in this place, was held today and the burial was in the settlement cemetery.

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

SHIPBUILDING STRIKE ON

Few Machinists at Work in Cleveland

SITUATION IS UNCHANGED

The Carmen Are Out in Louisville and Traffic Is Impeded—Postal Clerk, Who Helped Form Union, May Be Suspended.

Cleveland, O., March 12.—In obedience to the strike order issued Saturday by the officials of the International Brotherhood of Shipbuilders' Union, about 450 men employed at the Globe yards of the American Shipbuilding company in this city refused to go to work yesterday morning. The strikers included riveters, caulkers and fitters. At the Globe yards twenty ships are undergoing repairs, while two large vessels are under course of construction. Not to exceed twenty-five men remained in the yard after the strikers left, and these were mostly laborers. A despatch from Lorain yesterday said that the situation in the shipyard remained unchanged. About 300 union men struck in that yard several days ago. Nevertheless quit yesterday. The union men are in the minority. There was no strike in Buffalo yesterday morning in the yards of the American company, but the union men in the Ecorse and St. Clair plants of the Great Lakes Engineering works, in Detroit, walked out, leaving only the machinists, carpenters and laborers at work. The men left at the Wyandotte yard of the American Shipbuilding company went to work as usual yesterday morning, but are expected to quit. Despatches from Bay City say that the men at the American Shipbuilding company's yards there are at work as usual and probably will not strike.

CARMEN OUT IN LOUISVILLE.

Traffic Considerably Impeded—Numerous Demonstrations.

Louisville, Ky., March 12.—The attempt of the street railway company to run cars with non-union men yesterday morning was only partially successful. In the afternoon it had to be abandoned entirely. While no violence was reported, there were numerous demonstrations. With the exception of suburban cars and a few cars carrying the United States mail, not a car moved in the city Sunday. Neither side has made any offer of settlement. The strikers demand increased wages and recognition of the right to join the union.

TOLEDO STRIKE SETTLED.

Pope Motor Co. and Machinists Reach Agreement.

Toledo, March 12.—The Pope Motor strike of machinists involving over 1,000 men has been settled. The strike was settled in a manner satisfactory to both sides. The question at issue was certain promises said to have been made to the employees.

FOR FORMING POSTAL UNION.

Clerk Ordered to Show Cause Why He Should Not Be Suspended.

San Francisco, March 12.—Hugh M. Shang, a railway postal clerk, whose run is between Los Angeles and El Paso, has been informed by Division Superintendent Stephens of the railway mail

A Newport Lady

Run Down by a Cough and Sore Throat—She Finds Relief in Father John's Medicine.

Miss Marie C. Peck, 123 Thames street, Newport, R. I., writes that she had a dreadful cough, and while using various medicines her throat became sore, followed by shortness of breath. After taking only half a bottle of Father John's Medicine, she found relief, and very soon her cough was entirely cured. "I am still using Father John's Medicine to build up, as I have been run down, and it is so successful in renewing my strength that I have recommended it to many friends," says Miss Peck. As a body builder, Father John's Medicine has no equal. No alcohol or injurious drugs. Guaranteed.

CALLS HIS CURE A PERFECT MIRACLE

Suffered Tortures With Terrible Dry Eruptions Since Reaching Manhood—Doctors All Failed—Became Too Disfigured to Leave House—Now Well and Says:

CUTICURA REMEDIES WORTH WEIGHT IN GOLD

"I cannot help expressing to you my most sincere thanks for the benefit which I have derived from the use of Cuticura Remedies. They represent a perfect miracle and each set is worth its weight in gold to suffering humanity. Ever since the time I grew into manhood I have been suffering from a dry eruption which at times appeared very extensively, and at other times, but to a limited degree, on my body. I consulted a number of medical men without result, and last January I was affected with a terrible eruption on my hands, scalp, and face, which was so bad that I could not even leave the house, so I finally resorted to Cuticura. "In the morning after breakfast I took a tablespoonful of Cuticura. Resolvent, the same after dinner and supper. Three times a day I washed myself with Cuticura Soap, and three times a week I used Cuticura Ointment to the parts that were painful. So far my Cuticura Remedies represent an entire cure. I feel as well as I am completely restored to health, while formerly I had spent dollars upon dollars on doctors, remedies, and ointments without getting cured. Needless to say, I am quite ready to spend my last cent for Cuticura Remedies. Henry E. Karpman, 633 Eagle Ave., New York, N. Y., Feb. 16 and Mar. 18, 1906."

A FRIGHT WITH PIMPLES

Cuticura Soon Makes Skin Clear.

"My face, a few months ago, was certainly a fright with pimples. I heard about Cuticura Remedies, and got Cuticura Soap and Cuticura Ointment. In a short while my face was well and clear. I feel as well as I am completely restored to health, while formerly I had spent dollars upon dollars on doctors, remedies, and ointments without getting cured. Needless to say, I am quite ready to spend my last cent for Cuticura Remedies. Henry E. Karpman, 633 Eagle Ave., New York, N. Y., Feb. 16 and Mar. 18, 1906."

HERMANN LAND FRAUD TRIAL IN FIFTH WEEK

Witnesses for Defense Admits Having Been Indicted Five Times.

Washington, D. C., March 12.—When the trial of Binger Hermann, indicted in the land fraud cases, was resumed yesterday for its fifth week, George Sorrenson of Portland, Ore., took the stand. He said that when he reached Washington in February he had conferred with Hermann's son and attorney Galley, who is Mr. Hermann's son-in-law and associate counsel for the defense, regarding the legal phases of his testimony.

GETS MONUMENT JOB.

Hughes, Taft and Mayor Award \$172,000 Contract to Carlin.

New York, March 12.—W. H. Taft, secretary of war, Governor Hughes, Mayor McClellan, Lieutenant Colonel W. A. Marshall of the regular army and Stephen V. White of Brooklyn, composing the commission in charge of building a monument in Fort Greene park, Brooklyn, in honor of the Prison Ship Martyrs of the Revolution, met in the mayor's office yesterday and awarded the contract to P. J. Carlin & Co. of Brooklyn, at their bid of \$172,000. The monument, which is to be built by the national, state and city governments, will be a granite shaft 300 feet high and 9 feet square at the base. The shaft will be topped by a bronze urn.

The main approaches to the monument, when completed, will be three sets of granite steps, 100 feet wide and 300 feet in length. The corner stone is to be laid on July 4 next, and the contractors say that they will have the entire work completed in a year from that time. The monument was designed by the late Stanford White, and it is said to be the last design of any kind made by him. The firm of McKim, Mead & White will supervise the work of construction.

WILL KEEP LABOR IN CHECK.

Must Not Be Tyrannical, Says Clemens.

Paris, March 12.—The announcement that the Socialists would make an attack on the government as a result of the action of Premier Clemenceau in ordering military elections to take the place of the striking civilian electors last week attracted a large attendance in the Chamber of Deputies yesterday. M. Jaurès, the Socialist leader, classed the premier's action as being a denial of the workmen's right to strike for what they consider to be their just claims and as placing "absolute power in the hands of the capitalist. The premier, in vigorous terms, replied that he would not permit the workmen to become tyrants. It was the duty of the government to protect the mass of the public against the acts of a small minority. After a violent demonstration on the part of the Socialists, the Chamber, by 378 yeas to 68 noes, voted confidence in the government.

LOTS OF WHEAT ON HAND.

Report on Crops by the Department of Agriculture.

Washington, March 12.—The crop reporting board of the bureau of statistics of the agricultural department reported yesterday in a bulletin that the amount of wheat remaining in farmers' hands on March 1 was 368,644,000 bushels, or 28.1 per cent of last year's crop, as compared with 158,400,000 bushels, or 22.9 per cent of the crop of 1905, was on hand March 1, 1906.

The amount of corn on March 1 was 1,298,000,000 bushels, or 44.3 per cent of last year's crop. Of oats there were on hand 384,461,000 bushels, or 39.8 per cent of last year's crop.

WILLIAMS' CARBOLIC SALVE WITH ARNICA AND WITCH HAZEL.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, tetter, chapped hands, and all skin eruptions. It is guaranteed to give satisfaction or money refunded. Price 25c by druggists. Williams' Medicine Co., Proprietors, Cleveland, O. Sold by C. H. Kendrick & Co.

A HARD YEAR FOR SUFFERERS

Gives Advice to Cure Catarrh of all Kinds

DIRECTIONS TO PREPARE

Simple Home Prescription—Make Some Up and Try It—Don't Cost Much and Is Said to Do the Work Promptly.

Unless all signs fail, this will prove a hard season for those who are subject to catarrhal disease.

The coming months will be a harvest for the doctors and patent medicine manufacturers, unless great care is taken to dress warm and keep the feet dry.

This is the advice of a well known authority and should be heeded by all who are subject to rheumatism, kidney and bladder troubles and especially catarrh. While the latter is considered by most sufferers an incurable disease, there are few men or women who will fail to experience great relief from the following simple home prescription, and if taken in time it will prevent an attack of catarrh during the entire season.

Here is the prescription, which anyone can mix: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and use in teaspoonful doses after each meal and again at bedtime.

These are mostly vegetable ingredients and can be obtained from any good prescription pharmacy at small cost. The Compound Kargon in this prescription acts directly upon the eliminative tissues of the kidneys to make them filter and strain from the blood the poisons that produce all forms of catarrhal affections. Relief is often felt even after the first few doses and it is seldom that we suffer over experiences a return attack within the year.

This prescription makes a splendid remedy for all forms of blood disorders and such symptoms as lame back, bladder weakness and rheumatism pains are entirely dispelled.

As this valuable prescription comes from a thoroughly reliable source, it should be heeded by every afflicted reader.

HERMANN LAND FRAUD TRIAL IN FIFTH WEEK

Witnesses for Defense Admits Having Been Indicted Five Times.

Washington, D. C., March 12.—When the trial of Binger Hermann, indicted in the land fraud cases, was resumed yesterday for its fifth week, George Sorrenson of Portland, Ore., took the stand. He said that when he reached Washington in February he had conferred with Hermann's son and attorney Galley, who is Mr. Hermann's son-in-law and associate counsel for the defense, regarding the legal phases of his testimony. On cross-examination Sorrenson said there had been five indictments against him in Portland, three for conspiracy against the government, one for perjury and one for bribery. He had been tried and convicted on one of the conspiracy charges, but had not been sentenced. He had been tried on the bribery charge, but the jury disagreed.

He was asked concerning a letter said to have been written by Binger Hermann to attorney May of Portland, Ore., and said he had used the letter to induce persons to buy lands in forest reserves. He said that he had an indistinct recollection that the letter gave assurance that lands described would be included in the reserve.

SCHMITZ IS ENDORSED.

Exclusion League Favors Action in Washington.

San Francisco, March 12.—At a meeting Sunday of the Japanese and Korean Exclusion League, after several resolutions were passed endorsing the action of Mayor Schmitz and the board of education at Washington in reference to the San Francisco school children.

Anti-Itis Cures BRONCHITIS

For Sale by D. F. Davis.

What Kettle Rendered Lard Is.

Our Green Mountain Brand Lard is kettle rendered.

What is Kettle Rendered Lard? Kettle Rendered Lard is the kind that is tried out in the old fashioned way. It takes more skill to make it that way than it does to do it with steam, but when it is done it is better Lard than the kind that is rendered by steam.

ARGENTINA VERY CORDIAL

Anxious for More Trade With United States

FAILURE OF SHIP SUBSIDY

Causes Disappointment—Prepared to Make Some Tariff Concession—Her Imports from This Country Last Year \$40,000,000.

Buenos Ayres, March 12.—Estanislao Zeballos, minister of foreign affairs and formerly minister of Argentina to the United States, in an interview concerning the failure of the ship subsidy bill to pass at the recent session of the United States Congress, expressed his great disappointment at the fate of the bill and the conviction that the interest of both countries demanded measures for the extension of commerce which, with better ocean communication, would develop enormously.

Mr. Zeballos pointed out that legislation had been enacted long ago granting a subvention of \$100,000 annually for steamers performing a regular service between Argentina and the United States, and the Argentina government, he said, was prepared to make tariff concessions, where these were possible, for the purpose of facilitating commercial intercourse. The minister added that even as far back as the time when he was accredited to Washington he had a long conference with President Cleveland in which he made similar proposals on reciprocal lines.

In proof of the advantages of the policy he favored Mr. Zeballos quoted official figures showing that Argentina's imports from the United States had increased progressively from \$13,000,000 in 1900 to nearly \$40,000,000 in 1906 and her exports to the United States from \$7,000,000 in 1900 to over \$13,000,000 (gold) in 1906. He said he was confident that when the trade possibilities between the two republics were understood in the United States, the American Congress would see the desirability of mutual commercial relations, the balance being always largely in favor of that country. The minister thought it would be a matter for deep regret if Argentina, which he considered the most beautiful and fertile of the world, were to be shut out from the United States by a policy which, while beneficial to Argentina, would be doubly so to the United States.

TRADE WORKERS WHO TRAVEL.

Skillful Mechanics Who Wander Over the Earth.

In New York may be found skilled mechanics who have been wandering over the globe for half a lifetime. There are a few trades in which a skilled man with the mastery of several tongues can earn a living in almost any considerable city of the world. One such mechanic recently returned to New York after having journeyed around the world in the practice of his trade. He went West to San Francisco and after a profitable season there moved on to Australia. His final stopping place before his return to New York in the Pacific where he was employed for several months. Most of the mechanics who move thus freely about the world are continental Europeans. Woodcarvers, stonecutters, electrical workers of various kinds and garment cutters are among the mechanics that move about most freely.

A Hungarian garment cutter recently described the delights of the wandering life. He was sure of employment in any considerable town where he could speak the language, and with Hungarian, English, French and German, he was pretty well equipped for almost any part of Europe. In a single year he had lived and worked in seven different French cities, having almost circumnavigated France from Havre to Marseilles. In all these places he had easily found work by presenting himself and telling of his experience. He came to New York nine years ago, but has been back and forth to Europe several times. Paris was his lodestone, but other capitals also attracted him. He has sometimes been tempted by the great South American cities, but has not yet tried them.

The great temptation to such a wanderer is the trip around the world. The thing is not really difficult. He can cross this continent profitably in a few months with a stop at Chicago and perhaps another between Chicago and San Francisco. A stop of a few weeks or months at San Francisco will put him in funds for the voyage to Australia. There are four or five Australian cities in which a skilled man is sure of profitable employment. After Australia there are the great Anglo-Indian cities. The journey to Europe can be made with a stop at Cairo, if one chooses to make a little detour, and then Paris awaits one only a few hours beyond the end of the Mediterranean. Here are cheap living and good wages. In a few months one is more than equipped for the voyage to New York.

One has only to keep sober and know how to save money in order to make such a journey around the world with entire success. It does not mean uncomfortable living. In fact, the journeyman must be well dressed and must present a good appearance to get on. At the height of the season hardly any city has enough skilled garment cutters, for example, and the wanderers are always welcome when they reach a new town.—New York Sun.

NOT INSULVED BY ZELAYA.

No Friction With Merry, Says the State Department.

Washington, March 12.—State department officials deny the reports that President Zelaya of Nicaragua forced Mr. Merry, the American minister to Nicaragua, Costa Rica and San Salvador out of Nicaragua, and insulted him at the time of Mr. Merry's visit to Managua. The department has no knowledge of any friction between Mr. Merry and President Zelaya.

SCIENTISTS CLAIM CONSUMPTION IS SPREAD BY SPITTING IN PUBLIC

The bacillus of tuberculosis starts tuberculosis in the lungs. These cases, often and are spread from the lungs in coughing. A dry cough will spray the air full of these germs; a loose cough will deposit the sputum on the sidewalks, where it will dry, be trodden to powder, whirled about in the wind for healthy people to breathe, and so start up new plantations of these bacilli. Dr. Knopf says that an advanced case of consumption will eject about seven billions of these germs every twenty-four hours. It is a murderous practice to spit where others may bring the infection into the house on shoes or skirts, where it may dry and become a powder, to be sent into the air and breathed into the lungs. If the lungs are sore from colds or any other cause, these germs settle on the sore spot and set up what is called a "mixed infection." This is the starting point of consumption, and prompt treatment is required.

An eminent authority on lung trouble advises the use of the following simple formula, which can be secured from any good prescription druggist at small cost: Half ounce Virgin Oil of Pine (Pure), two ounces of Glycerine and a half pint of good whiskey. Mix and use in teaspoonful doses every four hours.

It is said that the mixture will break up a cold in twenty-four hours, and cure any cough that is curable. The ingredients should be pure, and to avoid substitutes, they should be purchased separately and mixed in the house of the patient. The Virgin Oil of Pine (Pure) should be purchased in the original half-ounce vials, put up for druggists to dispense. Each vial is securely sealed in a round wooden case, with the name—Virgin Oil of Pine (Pure), guaranteed under the Food and Drugs Act of June 30th, 1906, serial number 481, prepared only by Leach Chemical Co., Cincinnati, Ohio—plainly printed thereon. There are many rank imitations of Virgin Oil of Pine (Pure), which are put out under similar names and style of package. Never accept these as a substitute for the Pure Virgin Oil of Pine, as they will invariably produce nausea and never effect the desired result.

NEW AIRSHIP IS A WONDER.

Santos-Dumont Declares It Big Advance in Science of Aeronautics.

Paris, March 12.—Santos-Dumont has made another big advance in the science of aeronautics. He is about to begin trial trips in his "heavier than air" machine, which has just been completed, and which he considers the most successful of all his experiments in navigating the air. The machine was constructed to compete for the Deutsch-Archdeacon prize of \$10,000 for the first heavier than air machine to cover a distance exceeding one kilometre and return to the point of departure. It is much smaller, more fluid and more powerful than the Bird of Prey, with which he won the Archdeacon prize with a flight of 220 metres last fall.

In the new machine the canvas of the wings has been replaced by very thin polished wood and the framework is of light mahogany. The two wings are constructed like Hargrave box kites. A 20-horse power motor at the centre will operate a propeller with aluminum blades which has been placed in front. Behind and below is the operator's seat.

The helm and steering gear are in the rear, with side rudders on the wings to control the equilibrium. The whole aeroplane, which weighs 20 kilos less than the Bird of Prey, is mounted on a single cycle wheel equipped with an automobile tire, for the preliminary run before the aeroplane mounts.

NOT TO PLEAD GUILTY.

Story of Standard Oil's Position Denied.

Chicago, March 12.—J. A. Moffett, the president of the Standard Oil company of Indiana, which company is now on trial in the federal court on a charge of having received rebates, denies the truth of a statement published to the effect that it is stated in official circles in Washington that representatives of the oil company have made a suggestion to the federal authorities that the company may be willing to plead guilty to the indictments against it. Mr. Moffett said: "Any such statement is without any truth or basis of fact whatever. The Standard Oil company is not frightened by any prospect of conviction. The company and its officers and counsel entertain no distrust of the courage or fairness of either judges or juries in the federal courts. It looks to get the same fair administration of law in these cases as any other defendant would get, and it asks for nothing else."

Wants Bacon Fired in Pic Girl Case.

Burlington, Ia., March 12.—The Rev. Nabeah Osborne, pastor of the First Congregational church, is circulating a petition asking President Roosevelt to dismiss Assistant Secretary of State Robert Bacon, who is said to have attended the dinner given by Stanford White in which the "girl in the pic" figured.

Why We Deserve Your Confidence

The Rexall formulas have never been secret. We have always known them ourselves and have given them to thousands of customers. Right here is where Rexall Remedies have always done more to protect you than is even now required by the Pure Food and Drug Law.

You only know the dangerous drugs in other remedies—the rest of their formulas are still secret. You have always known everything in every Rexall Remedy.

No Rexall Remedy is a "cure-all"—there are 300 different remedies—one for each human ill—the most reliable and successful remedy for that ill proven by years of experience. We have sold these Rexall Remedies upon the squarest plan on which merchandise was ever sold. We have guaranteed to return the money to every purchaser who came back with the empty bottle or package and said that he or she was not satisfied—and we've never failed to live up to this guarantee.

The Pure Food Law did not necessitate any change in Rexall Remedies—on the contrary it has set the stamp of approval upon them. Best of all, you can actually prove that Rexall Remedies are unchanged. You knew their formulas four years ago, and you'll find them the same today!

Don't the Rexall Remedies deserve your confidence? Wouldn't you more readily trust a man whom you had proved to be naturally honest, than one who was honest because he had to be? You know that Rexall Remedies have been voluntarily manufactured and sold for four years in the very way that the law now declares to be the only right way.

FOR NERVES—AMERICANITIS ELIXIR

Rexall Americanitis Elixir is one of the 300 Rexall Remedies. It is a tonic nerve food composed chiefly of free Phosphorus, Glycophosphates, Iron Pyrophosphates and Calceaya. The wonderful results of this remedy are due to the fact that it supplies Phosphorus to the nerve cells in a condition in which it can be immediately and easily taken up by them.

The Glycophosphates, actual nerve-tissue builders, are one of the most recent and valuable additions to this branch of medicine and unquestionably a more efficient remedy than the well-known Hypophosphates.

The Iron Pyrophosphates are the more easily assimilated form of iron which give tone and color, and the combined alkaloids of the body. 75c. and \$1.50 a bottle.
